

**REMARKS/ARGUMENTS**

By the present amendment, the claims have been formally amended to revise the language deemed indefinite by the Examiner, thereby to overcome the rejection under 35 U.S.C. §112.

Substantively, the indication of the allowability of claims 2 through 4 is noted and appreciated.

Rejected claim 1 has been amended in a manner that fully distinguishes the present invention over the applied Hammond ('274) and Melchionna ('913) references. Clearly, the upwardly extending chutes of the applied references for returning non refundable containers to a user do not comprise an element for receiving and draining away bottle and can remnants as now recited in the claim.

With the foregoing amendment, claim 1 is deemed allowable and this application in condition for passage to allowance. Such action is respectfully requested.

Respectfully submitted,

ANDRUS, SCEALES, STARKE & SAWALL, LLP
